TAMBOY P is a son of Visor P and goes back to the famous Mort Matt Tammy on his mother's side. The transmission profile shows Tamboy P as a very complete sire. Good production with positive components, low cell count with very good milking speed, good persistence, average birth progress with excellent calving ease of the daughters and a flawless conformation profile with strengths in the rump structure and udder characterize the bull. The aAa code 246 and kappa casein BB complete the picture.
