Iniesta PP

With 130 GZW, INIESTA PP is one of the high, homozygous polled Fleckvieh bulls. His pedigree has an unusual bloodline and the R-family of the Hubert Schrems breeding farm is a rich source of very balanced polled bulls for Fleckvieh breeding. With high production and fitness values, an ÖZW of 123, beta-casein A2/A2 and a very balanced linear profile, Iniesta PP can certainly be described as an outstanding all-rounder. Especially a very good udder health with high milkability stands out. The births tend towards the easy side and the expected calving ease of the daughters is rated very positively.

Linear

Merkmal	ZW	Tendenz	88	112	124	Tendenz
Height at cross	104	small				large
Body length	95	short				long
