Alpview Tudor

Tudor is a son of the AltaZazzle son Validated and thus has a significantly different bloodline on the father's side. In the mother's line, the breeding legend Mogul dominates over his sons and grandsons, so that Tudor can be widely mated to all pedigrees that have less Mogul blood. The inheritance profile shows Tudor to be an outstanding sire of component percentages, who also impresses with very good fertility, excellent milkability with low cell counts and a high BCS value. In terms of exterior, Tudor promises medium-sized animals with a lot of width from the chest to the slightly sloping pelvis. The tendency towards steeper hind legs should be taken into account when mating. The high and wide udders have slightly longer, optimally placed teats. The calving ease numbers shows Tudor to be a bull that can be mated very well to heifers.
