Hannibal

4 M: Sully Shottle May EX-91

Hannibal is the No. 1 Hotshot son in Germany and goes back to the family of Sully Shottle May EX-91. Hannibal convinces with high production in connection with excellent fitness values, extraordinarily good daughter fertility and high longevity, the overall health values are on an excellent level and also a very good milkability with a decent cell count is something to be proud of. He transmits a functional conformation with good feet and legs, longer teats and - often requested - less height, but with more strength and body depth, which is lacking in most bulls that limit size. Hannibal tests Kappa-Casein BB and has average births, while the daughters' maternal calving ease is positive at 103.

Linear

Merkmal	ZW	Tendenz	88	112	124	Tendenz
Stature	83	small				tall
Rip structure	100	tight rib				open rib
