GGM: Sandy-Valley Nu Precious VG-88

Mikado is the No. 1 Motown son in Germany and goes back to the Wesswood Rudy-Missy EX-92 family via the very influential Sandy-Valley Nu Precious VG-88. Mikado convinces with a very good overall breeding value with high production as well as with an average height with very good feet and legs and udder inheritance. A special feature, however, are its extraordinary fitness properties. There are hardly any bulls that combine such high daughter fertility and cell counts with average milkability. Added to this is the long service life and very good health values. Mikado is particularly suitable for heifer insemination.
