GM ELL Laila VG-86

ELL Balmer RF

Balmer RF is the highest sbt. Crespo son on the market and comes from the always brilliant cow family of Lylehaven Lila Z EX-94 on his dam's side. Balmer's granddam Laila VG-86 is not only an outstanding performance cow, but also impresses as a source of excellent offspring, which has led to Balmer's GM ELL Laila VG-86 being nominated for the second time (after 2022) as a candidate for Germany's Cow of the Year in 2024. Balmer convinces with his inheritance profile, which shows him to be a very good production sire with good components (plus beta-casein A2/A2), who is also well positioned in the areas of fitness and health and has above-average milkability. With an RZRobot of 106, Balmer is also very suitable for AMS farms. The birth traits are rated favorably both paternally and maternally, so that Balmer can also be used for heifer inseminations. In the conformation area, we expect functional free stall cows with good movements, correct rump position and udders with longer teats that are placed further.

## Linear

Merkmal	ZW	Tendenz	88	112	124	Tendenz
Stature	104	small				tall
