Sinatra

Grossmutter: RR Beacon Rita VG-89

Sinatra comes from a very successful and proven cow family from the Reinermann breeding farm, which goes back to Wilhelmshoeve Rita 52 EX-93. Sinatra's mother RR Rita 215 is in the control year 2021 with her 3rd lactation production of 16,190 kg milk with 5.11% fat, 3.92% protein and 1463 kg F+E in the top 10 of the German Holstein top performance cows. Sinatra himself also transmits high components as well as a flawless and balanced conformation as well as good fitness with a long service life, positive daughter fertility and good health values. The young, calved daughters are late-maturing, medium-sized cows with crystal-clear feet and legs, wide rumps and glandular, firmly attached udders with appropriate teat length and placement. Sinatra inherits beta-casein A2/A2.
