Bentley PP Red

Bentley PP Red is a homozygous polled Born P - son who goes back over 6 generations of VG and EX - cows to the world-famous Ralma Juror Faith EX 91. Like all members of this cow family, Bentley also promises long-lived offspring with high fat and good protein production. In terms of conformation, medium-sized animals with very good feet and legs and udders can be expected. Bentley also transmits excellent fitness and is one of the highest PP sires for hoof health and Mortellaro resistance. Beta Casein A2/A2. The predominantly dark-colored young animals of Bentley PP Red are very vigorous cattle with deep, open ribs, long metacarpals, very balanced pelvis structure and perfectly angled hind legs that are set completely parallel.
