Horst PP

Horst PP RF is a homozygous polled sire from a proven and internationally successful cow family with various bulls in AI. Among other things, his UGM Britania is a full sister of the Canadian sire of sons Swissbec Brekem RC. Horst himself is one of the top German PP performance sires with 66 fat and protein kg and is the only one with an excellent daughter fertility of 112 RZR. In addition, he passes on excellent milkability with an average cell count, as well as a solid conformation with good feet and legs and udder transmission and slightly sloping rumps. Horst is well suited for heifer insemination and one of the two highest polled red factor carriers in Germany without Solitair and Mission in his pedigree.
