KNS Galwan RF

GGM: KNS Dalista VG-86

KNS Galwan RF is an early Gywer son that goes back to the extremely successful cow family of KNS Integrity Dorfgirl EX-93. Galwan is one of the highest red factor production sires in the country. He combines extremely high milk production with very good fitness values and a very attractive conformation with particularly good feet & legs. A special feature that gives him a unique selling point among German AI bulls is the combination of a milk production of 1.591 milk kg and very good daughter fertility of RZR 113 He also has very good health values, which in turn include the reproduction value, but also the values for metabolic and hoof health stand out. Galwan is very suitable for heifer insemination.
