Wolfhard Schulze

GGM: KNS Dalista VG-86

KNS Galwan RF is an early Gywer son that goes back to the extremely successful cow family of KNS Integrity Dorfgirl EX-93. Galwan is one of the highest red factor production sires in the country. He combines extremely high milk production with very good fitness values and a very attractive conformation with particularly good feet & legs. A special feature that gives him a unique selling point among German AI bulls is the combination of a milk production of 1.591 milk kg and very good daughter fertility of RZR 113. He also has very good health values, which in turn include the reproduction value, but also the values for metabolic and hoof health stand out. Galwan is very suitable for heifer insemination.

Linear

Merkmal	ZW	Tendenz	88	112	124	Tendenz
Stature	105	small				tall
Rip structure	102	tight rib				open rib
Body depth	97	shallow				deep
Strength	99	frail				strong
Rump angle	108	high pins				sloped
Thurl width	100	narrow				wide
Rear legs side view	79	posty				sickled
Foot angle	115	flat				steep
Hock quality	108	coarse				dry
Rear legs rear view	109	hocked in				parallel
