KNS Daniel Red

Daniel Red descends from Niermann's very successful D-line and goes back to Integrity Dorfgirl EX-93. Daniel continues the successful tradition, was high on the top list for a long time and also convinces as a progeny tested sire with the top combination of 128 RZG, 112 RZE and 119 RZN. Daniel passes on exceptionally high milk production, but also has outstanding fitness and health values with very high daughter fertility, high longevity and very good udder health. His conformation is also impressive with a very balanced linear with good feet & legs and udder inheritance. Daniel is also particularly suitable for heifer inseminations due to very easy births and, with an RZRobot of 105, also for AMS farms.
