RR Montana

RR Montana comes from one of the most important cow families in Holstein breeding and goes back to Germany's Cow of the Year 2018 RR Shottle Elisa EX-90 and the Snowman dam Broeks MBM Elsa EX-90. Montana is still one of the highest performance sires in Germany due to his outstanding performance values with 129 fat and protein kg. His dam also produced more than 1,250 kg of fat and protein in the second lactation. In addition, Montana promises a good conformation with a strong physique. In addition to good udder health and a positive reproduction breeding value, Montana also tests A2A2.

## Linear

Merkmal	ZW	Tendenz	88	112	124	Tendenz
Stature	112	small				tall
Rip structure	104	tight rib				open rib
Body depth	106	shallow				deep
Strength	109	frail				strong
Rump angle	88	high pins				sloped
Thurl width	101	narrow				wide
Rear legs side view	103	posty				sickled
Foot angle	106	flat				steep
Hock quality	95	coarse				dry
Rear legs rear view	100	hocked in				parallel
Front feet orientation	108	hocked in				parallel
Locomotion	102	poor				good
Rear udder height	113	deep				high
Udder cleft	122	weak				strong
