Chicago P

Mutter: Sensation PP VG-85

Chicago P is one of the highest polled sires of his crop according to RZEuro and his first daughters confirm this. He combines very good profitability with outstanding fitness and health values, a functional conformation and a very high longevity. One of his particular strengths, however, is that he is an absolute outcross sire for polled breeding. This means that he can not only be used on all progeny of the P sires that have recently been used a lot in Germany, such as Simon P, Solitair P, Hotspot P or their sons, but also on progeny of the previous generation of influential P sires such as Mission P, Powerball P or Apoll P. In addition, Chicago tests A2A2.
