Udder	110

Lotus PP RF is one of the few sbt. Sailor sons on the market and goes back through an alternative pedigree to the Canadian bull dam Arron Doon Twist Lu P from the Locust-Peak Maple Lulu EX-96 cow family. Lotus offers a convincing overall package with solid performance, consistently positive fitness values, with particular strength in daughter fertility and very good health values. In terms of conformation, Lotus convinces with transmission of average size, slightly sloping, wider rumps as well as slightly angled hind legs with dry joints, which are required for more and more matings, and high, firmly attached udders. Lotus also inherits Kappa-Casein BB and can be used well for heifer insemination.
