Gerry P Red is an early Global son who goes back to the legendary Larcrest Cosmopolitan and is also polled. Gerry is a very complete sire with good production and a very attractive conformation with excellent udder transmission. His extraordinary fitness values should be emphasized, in which he belongs to the top 3 of the red P sires according to daughter fertility (RZR 119) and also convinces with very good udder health. Gerry can be used well for heifer insemination and also impresses with the transmission of very good maternal calving traits (RZKm 107). Due to the bloodline and the inheritance of slightly sloping rumps, Gerry can be used well on the daughters of Solitair and those of his sons.
