Musical PP Red

Musical PP Red from the Schlösser breeding farm plays a special role among the highest PP sires in the country, as Solitair P and his sons are not represented in his pedigree and he can therefore be mated very well to the corresponding daughters. Musical's great-granddam is the outstanding Simplicity daughter Morningview SMP 6330 VG-87, who goes back to the Roxy family and produced almost 1,500 R+D kg in her 3rd lactation (19,201 4.60 884 3.11 598).

Musical PP himself offers an excellent complete package with good production with high components, very good fitness values with high daughter fertility, good cell values with positive milkability as well as consistently good health values with very good calf fitness. In addition, Musical convinces with excellent conformation with a lot of body depth, wide, sloping rumps and very good feet&legs and udder inheritance. Musical can be used well for heifer inseminations and also convinces with very good maternal calving traits.

## Linear

Merkmal	ZW	Tendenz	88	112	124	Tendenz
Stature	126	small				tall
