Mambo PP Red

Mambo PP Red is an attractive, red-and-white bull sired by Memphis PP Red and tracing back to the family of HWH 3Star Ella P RF EX-90—a cow that has distinguished herself for years as a dam of bulls.
++ Mambo PP Red boasts a highly balanced genetic profile, featuring strong milk yield, excellent persistency, and positive components, combined with the A2/A2 beta-casein and BB kappa-casein variants.
++ In terms of fitness and health, he stands out for his high breeding values for hoof health (including resistance to digital dermatitis) and excellent udder health—evidenced by low somatic cell counts—while maintaining good milking speed.
++ His conformation is characterized by moderate stature, significant strength, slightly sloping rumps, and functional legs and feet. His high-attached udders feature a strong central ligament and average teat length.
++ With a calving ease score of 103, he ranks as average; sexed semen from this bull will also be available in the near future.
