RAIDER

Stammkuh: Beacon Sambuca VG-86

Raider is the No. 1 Roman son in Germany and goes back to the very successful cow family of Beacon Sambuca, from which various bulls have already been used for AI in Germany and abroad. Raider convinces across the board with a good production, very good udder health, high longevity as well as excellent health values and a great conformation with extraordinarily good udder and feet and legs transmission. Raider is also testing A2A2, is particularly suitable for heifer insemination and a RZRobot of 120 for AMS farms.
