Spotted PP Red

Spotted PP Red goes back to the cow family of Curr-Vale Delicious EX-94 and, as the only homozygous polled Sanseo son and without Solitair, Hotspot or Match blood, represents an alternative for polled Red Holstein breeding at a high level. Spotted PP is one of the highest PP bulls by milk kg on the market and currently No. 2 for protein kg in the rbt. PP sires. Otherwise Spotted convinces with an attractive conformation with good udder transmission with longer teats as well as the frequently sought-after transmission of sloping rumps. Spotted also convinces with good health values, he is well suited for heifer insemination due to easy births and also tests A2A2.
