SHV Malaga Red

SHV Malaga Red from the successful Schwengers breeding farm is ranked high among the Red Holstein sires in the German top list with 154 RZG. With 150 RZM and 187 kg fat/protein, Malaga Red is an outstanding performance sire of the international Red Holstein breed. Malaga traces her lineage back to his great-granddam Mission Missy VG-89 through three generations of VG-classified dams, who produced over 1,200 kg fat and protein in her third lactation. His dam, SHV MissGrando VG-88 (87-90-87-87), has now calved for the second time and produced an average of 49.2 kg milk in 170 days – with a milking speed of 3.3 kg/min.
In addition to his outstanding production inheritance, Malaga impresses with good health values and an excellent, functional conformation with wider rumps and very good feet & legs and udder inheritance. Malaga also transmits excellent maternal calving traits; he carries the top combination of beta-casein A2A2 and kappa-casein BB and is ideal for use on heifers.
Malaga Red produces well and is also available sexed.
