GM: SHV Lena P VG-85

PARADOX P is a son of Picard from an excellent Foreman daughter and goes back to the proven bull mother Aija Supersire Makea in the dam line. Paradox P's strength lies in very good performance inheritance, which he combines with excellent daughter fertility and very high health values. Paradox P also inherits more strength than size and a BCS of 112. With an RZRobot of 116 and the matching teat length and placement, as well as perfect udder balance, Paradox P is particularly suitable for robot farms.
