Stammkuh De Oosterhof DG Rose RC VG-89

Superstar Red, from the successful breeding program of Seidenfaden GbR (Mechernich), is one of the few sons of the top Dutch sire Simply-Red to enrich the German market. His high-performing cow family is based on the internationally highly successful Rubicon daughter De Oosterhof DG Rose RC VG-89, the granddam of the former top bull Ranger Red.

Superstar Red impresses with excellent breeding values in Germany, the USA, and other European countries. He passes on high milk production with favorable milk components, paired with outstanding fitness and health traits—particularly a long productive life, excellent udder health, outstanding daughter fertility, and top-notch persistence.

In terms of conformation, he promises medium-framed offspring with correct legs and hocks, as well as firm, high-set udders with slightly longer teats. This makes Superstar Red ideally suited for AMS operations and also fully suitable for use as a heifer bull.
