Kairos

Kairos is a Kerrigan son from alternative bloodlines, which goes back to the cow family of the legendary Italian show and breeding icon AE Inspiration Janette EX 93, which impresses over generations with its extreme components. Mother Imke was in the 1st lact. at 5.50% F/4.09% E, the GM Ilka has 88,000 kg LL after 5 lactations and was 2021 (for the second time after 2019) with 18,384 kg M with 4.93% F/3.77% E and 1599 kg R&D the cow with the highest lactation production in Germany. Kairos passes on these high components - his calved daughters prove this daily on the farm, plus beta-casein A2/A2 and an excellent conformation with very good udder and feet and legs transmission. The very good hoof health and suitability for AMS impresses (RZRobot 115) as well as his very good insemination results.
