Dublin P Red

Dublin P Red is a polled Red stallion from the Apina Massia family. Several bulls from his mother have been successfully inseminated, with Dublin being the highest among them. sire is. Dublin transmits a good production with excellent protein values and a balanced conformation. The calved daughters of DUBLIN P RED impress with their medium size, a lot of frame, significantly more strength and functional feet and legs. The udders are very glandular, milk well and have good attachment. The services are praised, as are the very good ingredients. Dublin P Red tests Beta Casein A2/A2 and Kappa Casein BB!
