HRH Ricardo Red

Ricardo Red is the highest son of Rammstein Red and ranks high according to RZG and also to RZEuro in the German Red Holstein top list. The inheritance profile shows Ricardo Red to be a very good performance sire with strong health and fitness values. The conformation profile suggests well-developed offspring with slightly sloping rumps and parallel, optimally angled hind legs. The firmly attached udders are very suitable for AMS due to a wider teat placement and a favorable value for udder balance. Ricardo Red can be used very well on heifers and the maternal KV is also rated favorably.
