GM: ETG Sandy-Red VG-86

HRH Ricardo Red

Ricardo Red is the highest son of Rammstein Red and with 153 RZG ranks No.14 according to RZG and No. 12 according to RZEuro in the German Red Holstein top list. The inheritance profile shows Ricardo Red to be a very good performance sire with strong health and fitness values. The conformation profile suggests well-developed offspring with slightly sloping rumps and parallel, optimally angled hind legs. The firmly attached udders are very suitable for AMS due to a wider teat placement and a favorable value for udder balance. Ricardo Red can be used very well on heifers with 112 KVd and the maternal KV is also rated favorably with 111.

## Linear

Merkmal	ZW	Tendenz	88	112	124	Tendenz
Stature	119	small				tall
Rip structure	106	tight rib				open rib
