Quality T?chtergruppe Gan. Etxeberri, Spanien

Jook Einstein QUALITY

Quality is a son of Silverridge Einstein, who impresses with his daughters and is increasingly gaining a reputation as a sire of bulls. In the maternal line, Quality comes from the same family as T-Spruce Lionel, which demonstrates the family's ability to transmit high production. With 3103 GTPI, Quality is an outstanding all-rounder with very high milk yield and good components (plus beta-casein A2/A2 and kappa-casein BB), excellent udder health, daughter fertility and longevity, as well as easy births. The daughters are average in size, have open ribs, broad rumps, and very good feet & legs. The high-attached udders have a very firm suspensive ligament and longer, centrally placed teats. With additional daughters in milk, Quality is recording a further increase in his breeding values and is becoming increasingly important for breeders of profitable freestall cows..
