Jook Einstein QUALITY

QUALITY is a son of Silverridge Einstein, who impresses with his daughters and is increasingly making a name for himself as a sire of bulls. With 3068 GTPI and 1.066 NM\$, Quality presents itself as an outstanding all-rounder with very high milk production with positive ingredients (plus beta-casein A2/A2 and kappa-casein BB), excellent udder health and longevity as well as easy births. The modern linear profile suggests average-sized animals with open ribs, wide pelvises and functional feet and legs, which have high-hanging udders with slightly longer, centrally placed teats.
