HAH Milestone

HAH Milestone is a high-ranking son of Mirko; in addition to his outstanding gTPI, he stands out due to his unique pedigree. On the maternal side, Milestone traces back to the famous Manat Mirage/Mars Las Ravena family (spanning 17 generations of EX/VG-rated cows).
++ Milestone transmits high production with very high components and impresses with excellent udder health and mastitis resistance, combined with very good milking speed.
++ His balanced conformation profile promises well-developed offspring with very wide rumps and slightly angled rear legs. The firmly attached udders feature centrally placed teats of ideal length.
++ Thanks to easy calving, Milestone is also suitable for use on heifers.
