Monaco PP RF

Mutter: Sensation PP VG-85

Monaco PP is a homozygous polled son of the internationally successful conformation specialist Mirand and of Sensation PP, who tests highly in various systems. Monaco PP is a very complete all-round sire with good production and fitness traits, easy births and very good conformation with excellent udder transmission. Monaco is also an outcross sire for German polled breeding and can be used on offspring of widely used P sires such as Simon P, Solitair P, Hotspot P or their sons, but also on offspring of the previous generation of influential P sires such as Mission P, Powerball P or Apoll P. Monaco also inherits beta-casein A2A2 and is also interesting as an RF carrier for Red Holstein breeding.
