Hin Mood

Mood from the Hinnemann breeding farm is a son of the bull sire Elon, who is less used in Germany, and out of a high-performing Perfect daughter that goes back to the successful Hin Macao EX-90, which also tests well in the German system. Mood himself impresses as a complete all-rounder with a good overall breeding value with very high performance with positive ingredients, a long service life, good health values as well as very good conformation with smaller size, slightly sloping, wider rumps and very good foundation and udder inheritance. Due to very easy births, Mood can also be used well on heifers.
