NH Fire

NH Fire is one of the few available sons of the internationally successful sire Aurora Mitchell and traces back to the influential cow family of Ralma Juror Faith EX-91. His sire line reads like an encyclopedia of Holstein breeding, boasting a combination of sires that have solidified strength, dairy type, and exceptional udders in their pedigree. Like his daughter-proven sire and grandsire, Fire combines good production with outstanding conformation and a high overall breeding value. In addition, Fire impresses with very good fitness scores, which complete his attractive package.

His first calved daughters impress with their substantial frame, wide pelvises, excellent feet and legs, and high, firmly attached, glandular udders with longer teats and very good milk production.e.

### Linear

	ZW	-2	2	
Stature	2.55	small		tall
